Can we get it on one of our dates this month?

Hi James,

This just needs to be scheduled, WPD would check and refer to LSD for a clean up most likely. Captain Baez said he would check up on this situation

Stacey,

We had units out there yesterday, the RV should have been moved. I will follow up today.

Captain Baez

Much Appreciated,

Renée

Good morning Captain Baez,

Yes the unit that was using our electricity is gone. I have contacted parking enforcement this morning, ticket number 0181, for the 8 other RV's that have been there for several months which have impeded street cleaning from cleaning. The smells that are coming from these RV's is horrible and can't possibly be healthy. Pedestrians have to walk in the street to avoid trash and people who are constantly fighting, soliciting or dealing drugs.

Charisse and I are going to reach out to have posted parking signs which limit the amount of time you can park on the east side of LOS ANGELES St. This will help with the RV parking and will allow your office, DOT and parking enforcement to tow these vehicles away.

Thank you and the officers for their assistance yesterday.

Stacy

Hi Stacy,

Good Morning...I was out of the office yesterday. I will forward this to our boss and he will make sure it gets to the proper person.

Hello All:

I hope everyone had a safe and restful weekend.

This morning we were made aware that the camper parked directly across the street from our office is syphoning electricity from our building and exposing live and dangerous wires. I believe this is also theft.

Alex and Mo, Charisse and I we were introduced to you via Captain Randolph and we hope you can provide some immediate assistance with this problem.

I also have Rebecca Sherrill on this e-mail thread with DWP as she has been an advocate with getting us lighting for the area as well as assistance with problems such as this.

We have within the last week, witnessed fighting in the street and in our parking lot, constant public displays of nudity, trespassing onto our property to use our water and public human defecating on our front lawn in broad day light.

This problem is becoming more and more serious and dangerous every day. The immediate hazard and danger right now are the exposed live wires.

Your immediate assistance in this matter will be greatly appreciated. We look forward to hearing from you.

Thank you all,

Stacy (323) 846-1649
